To Whom It May Concern:

Jessica Safreed spent 6 weeks at Oak Glen Middle School, teaching both 8th grade Pre-Algebra/Pre-Geometry and 8th grade Reading/Language Arts. While in the Pre-Algebra/Pre-Geometry classroom, Jessica taught two different blocks of students – an advanced class and a co-taught class. In both subject areas during her time at OGMS, Jessica did a wonderful job. She brought ‘new and fresh’ ideas to the classroom and incorporated many different technology aspects into her daily lessons. The students loved their time with Miss Safreed, as she was able to relate to them in an educational setting and on a personal level. Many of Jessica’s ideas are still being implemented into our classroom routines! Jessica is a very hands-on teacher and the students love her activities and lessons. She explains the content very thoroughly and has no problem with differentiating her instruction to fit the needs of her students. Jessica always conducted herself in a very professional manner and was prepared every day for whatever challenges were before her. As veteran teachers, we both highly recommend Jessica for any future endeavor in the ever-changing world of education. She will be an asset in any path that she chooses.

Sincerely,

Jennifer Loveland, 8th grade R/LA

Mandy McGeehan, 8th grade Pre-Algebra/Pre-Geometry

Oak Glen Middle School
